

GARDEN BORDER DESIGN AND PLANTING WORKSHOP

PLANTS BY SOIL TYPE

This table shows you which plants thrive in different types of soil. Some plants are mentioned in two types of soil, this is because they will tolerate different soil if not competing with weeds and the soil is mulched yearly.

Clay soil	Chalky soil	Sandy soil	Silt soil	Wet soil
Aruncus	Agapanthus	Acer palmatum	Aconitum	Actaea
Astilbe	Buxus	Achillea	Calamagrostis	Astilbe
Astrantia	Ceanothus	Agastache	Camellia	Cornus
Buxus	Chionodoxa	Amelanchier	Deschampsia	Darmera peltata
Calamagrostis	Clematis	Cistus	Digitalis	Filipendula
Cornus	Cotinus coggygria	Crambe cordifolia	Hakonechloa	Gunnera manicata
Euonymus	Cotoneaster	Crataegus laevigata	Hyacinthoides	Hosta
Eupatorium	Crataegus	Dianthus	Laburnum	Hydrangea paniculata
Fatsia	Crocsmia	carthusianorum	Mahonia	Iris pseudacorus
Geum	Dianthus	Echinacea	Malus sylvestris	Iris sibirica
Hosta	Dicentra	Erigeron	Paeonia	Ligularia
Humulus	Echinacea pallida	karvinskianus	Phormium	Liquidambar
Hydrangea	Erysimum	Eryngium	Pyracantha	styraciflua
Lythrum	Euonymus fortunei	Kniphofia	Rodgersia	Lobelia cardinalis
Mahonia x media	Fagus sylvatica	Lavandula	Rudbeckia	Lysichiton americanus
Monarda	Geranium	Nepeta	Vitis	Lythrum
Nandina domestica	Hebe	Perovskia		Matteuccia
Osmanthus x burkwoodii	Lavandula	Phlomis fruticosa		struthiopteris
Persicaria	Lonicera nitida	Salvia		Phyllostachys
Phlox paniculata	Miscanthus nepalensis	Santolina		Primula florindae
Polemonium	Persicaria affinis	Sedum		Primula japonica
Primula	Potentilla	Sorbus		Rheum palmatum
Roses (Rosa)	Stipa	Stachys byzantina		Rodgersia pinnata
Sambucus	Verbascum	Stipa		Salix
Sarcococca		Verbascum		Zantedeschia
Syringa				aethiopica
Taxus baccata				
Thalictrum
